5889 Greenwood Plaza Blvd
Greenwood Village, Colorado 80111
United States

Phone: (800) 345-4610

Armstrong Steel Building Systems, in Greenwood Village, Colorado, is one of the largest pre-engineered building suppliers in North America, from a pre-fab building kit to a turnkey solution for your 100,000 square-foot facility. They supply a wide range of steel buildings from conventional metal building to custom-designed steel frame structures supporting brick, rock, block, stucco and concrete exteriors. Armstrong Steel customers are business owners, congregations, architects, engineers, developers, homeowners and corporate purchasing directors.
