Phone: (800) 210-6776

Behm Design is a leading provider of ready-to-use garage plans. Its founder Jay Behm is a graduate-architect and has more than 25 years of design and drafting experience. These garage plans are designed to IRC building code conventional framing details. Many of the drawings use manufactured roof trusses, and others use conventional rafter and joist framing. All Behm Design garage plans include foundation plans and details using industry-standard materials and assemblies.
