Pacific Shore Stones offers granite and other natural stones at wholesale prices. They have their own processing facility in Brazil at Cachoeiro de Itapemirim, which is considered as the Mecca of granite world. This facility, converts the huge stone blocks into processed slabs, and undertakes the task of polishing and coating the slabs with resin and selling it to their consumers and builders in U.S. Pacific Shore Stones have a huge inventory of stones, consisting of more than 120 colors to meet the requirements of fabricators, builders, and individuals.
