Fax: (303) 402-9007

Gettliffe Architecture specializes in a green architectural design process. The company is headquartered in Boulder, Colorado. Based in Boulder, the company has a partner studio in Nicaragua, and offers a wide range of green architectural design services to local and international clients, with a wide range of projects that include private residences and eco lodges and community architecture. Among the services offered by Gettliffe are feasibility studies, resource inventory and programming, onsite workshops, conceptual and schematic design, as well as design development and contract administration. A project gallery on the firm's web site highlights some of its past projects.
