LDL Studio is an architectural firm licensed in over fifteen states, and headquartered in Providence, Rhode Island. Founded in 1995, the company specializes in the architectural design of restaurants, spas, hotels, and hospitality projects, completing more than three hundred successful hospitality design projects. LDL Studio has also been active with national companies in developing LEED and eco-friendly certified projects. The firm's headquarters is in a historical Fire House, circa 1862, in Providence. A profile of the firm, a client list, and past projects are highlighted on its web site.
