Electrical Contractors, Incorporated is a full-service electrical contractor whose offices are in Hartford, Connecticut. ECI also installs data and phone systems, fire alarms, security, video, and sound systems. Its traffic division installs traffic signals, poles, and controllers and provides highway and street illumination, underground utility, and parking lot lighting services. In addition, ECI develops fiber optic, outside plant infrastructure, and complete systems grounding solutions for telecommunications companies and services in the alternative energy industry. The company has been providing electrical services throughout Connecticut and Massachusetts since 1971. With over a hundred licensed electricians and over twenty-five managers and support staff, the ECI is qualified and equipped to handle any job size. The ECI website features a company history, a project gallery, and client testimonials.
