G&M Electrical Contractors is a full-service, union electrical contractor, in business since 1945, based in Chicago, Illinois. G & M employs over one hundred employees, owns multiple service vehicles, and enjoys a bonding power of over \$60 million. The company has a long history of designing, installing, and servicing electrical systems throughout northern Illinois. Chicago's largest general contractors have been its clients in constructing commercial, institutional, and industrial facilities. The company's qualifications and capabilities in electrical construction include, but are not limited to, design/build construction, power distribution, energy savings, and compliance.
