S2M Detailing in Idaho Falls, Idaho, is your choice for commercial, industrial, and miscellaneous steel detailing. They have a diverse detailing background in all types of structures--from schools to multi-level buildings, and custom homes to hotels. Their employees are trained in and use the latest SDS/2 modeling software, along with Autocad 2000 and Steelware. Their detailers backgrounds in erection, fabrication, and detailing allows them to visualize even the most complex projects through to completion.
