55 Union Place #102
Summit, New Jersey 07901
United States

Phone: (908) 358-5799

NJ Mold Testing & Remediation LLC offers mold-certified inspections and remediation contracting to northern and central New Jersey from Summit, NJ. The company promises a 24-hour turnaround on tests using environmentally safe products and can handle all building types, whether single or multi-family homes, apartments, complexes, and offices. NJ Mold Testing & Remediation is committed to finding the source of the problem before mold appears before it becomes a nightmare. Mold needs water and moisture to grow. If inspected regularly and immediate action is taken when water damage occurs, you will protect yourself from costly damage. If you live in New Jersey, NJ Mold Testing & Remediation can help eliminate your mold problems. Mold inspection If there is mold, the inspection and tests will determine what mold exists and establish a realistic action plan. The company services are described in detail on its website, including informational articles and links to additional resources.
