

Fairfield County Safe Wash

Stamford, Connecticut 06903
United States

Phone: (203) 536-2400

Fairfield County Safe Wash is a family-owned business that Jim Jagodzinski Sr. and his son Jim Jr. established in the spring of 2011. After attending seminars and receiving proper certification, Jim Sr. and Jim Jr. began their new business venture with a focus on roofs and exterior cleaning. During the training sessions, their technicians learned about the cause of the mold and how to effectively treat it. They also learned about the latest technology and products that are available to clean your property in the best possible manner. Their full line of exterior cleaning is offered for all residential and commercial properties. Fairfield County Safe Wash uses a non-pressure soft washing system to get your property's exterior cleaned safely and more efficiently. From residential homes and condominiums to parking garages and playground equipment.
